About Me

Frontend Developer with nearly 2 years of commercial experience. I specialize in building responsive, high-performance UIs for e-commerce and SaaS products. Strong proficiency in React and Next.js, including complex logic, theming, performance optimization, and SEO. Fast learner with a problem-solving mindset, even in unconventional situations.

Work Experience

April 2025 — Present
Frontend Developer (Contract, NDA)
Large International IT Company

Context: Maintaining and developing a large-scale corporate web app using React + Redux within a distributed team. Agile workflows, daily meetings with dev team and PM.
Responsibilities and Achievements:

• Bug fixing based on Jira tickets — prioritization and timely delivery

• Implemented new features on profile and dashboard pages — forms, modals, API integration

• Worked with global state (Redux + Redux Toolkit), including selector and reducer optimizations

• Actively participated in code reviews and UI/UX discussions with the team

Tech Stack: React, Redux, Redux Toolkit, TypeScript, SCSS, REST API, Git, Jira, Figma

February 2025 — March 2025
Frontend Developer
Time To Travel (Travel Tech Startup)

Context: MVP development for a travel planning platform — routes, booking, content generation, admin panel. Team of 4 with close designer and backend collaboration.
Achievements:

• Built admin panel from scratch: content management (tours, cities, destinations), filtering, Excel exports, analytics

• Implemented multi-level auth and access control (JWT + role-based policies)

• Created a library of 25+ reusable components — accelerated team dev by 30%

• Integrated theming (light/dark) with localStorage preference saving

• Optimized image/component loading (Lazy loading, dynamic imports, priority loading) — PageSpeed improved from 71 to 89

• Integrated analytics (Yandex.Metrika, Google Analytics) with event tracking

• Set up CI/CD pipeline on Vercel with lint/test/build checks and auto-deploy to staging/master

• Participated in sprint planning, refinement sessions, and project/UI/UX improvements

Tech Stack: React, Next.js, TypeScript, Tailwind CSS, REST API, Git, Vercel, Figma, JWT, Google Analytics, Yandex.Metrika

March 2024 — January 2025
Frontend Developer
LLC "Innovative Climate"

Context: Developed an e-commerce site for climate equipment (B2C), 500+ catalog items, payment and CRM integrations.
Achievements:

• Built a responsive catalog site with filtering and product cards — SPA with SSR and SEO

• Implemented product comparison feature with smart diff highlighting — +23% engagement (via analytics)

• Set up Google Analytics + Yandex.Metrika with event/goal/user flow tracking

• Designed mobile version with optimized UX — +25% conversion from mobile

Tech Stack: Next.js, TypeScript, Tailwind CSS, Redux, Prisma ORM, Git, Figma, MySQL

September 2023 — February 2024
Freelance Frontend Developer
Private Clients

Context: Delivered projects for small businesses and studios — landing pages, site improvements, speed optimizations, UI customization.
Achievements:

• Built and customized 5 websites (responsive layout, forms, animations, sliders)

• Developed custom price calculators and dynamic request forms

• Improved Lighthouse scores by +25 points on average (lazy loading, code splitting)

• Implemented UI theming with CSS variables and custom toggles

Tech Stack: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Git, Figma

Technical Skills

Languages and Markup: JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS/Sass
Frameworks and Libraries: React.js, Next.js, React Query, React Router
UI Libraries: Tailwind CSS, Material UI, Bootstrap, Styled Components, CSS Modules
State Management: Redux, Redux Toolkit, Context API, Zustand
Databases: PostgreSQL, MongoDB, Prisma ORM, MySQL
Dev Tools: Git, GitHub, Webpack, Vite, ESLint, npm/yarn/pnpm
Testing: Jest, React Testing Library
Additional: REST API, GraphQL, Firebase, Vercel, Netlify, Figma, Responsive Design

Additional Information

Languages: Russian (native), English (B2)
Achievements: Participant of International Hackathon "Digital Breakthrough"
Professional Interests: Web performance, UI/UX, JAMstack, micro frontends
